**DAVID JASSO**

David graduated from Simon Rodilla Continuation High School in South Los Angeles and followed his counselor’s advice to enroll at ELAC. His major is criminal justice because he has always wanted to serve the public and feels that it is a secure career. David’s mentor and favorite teacher is AJ instructor Patrick Hauser. “He has real experience in law enforcement and his lectures are life lessons as well as teaching us about the law,” David observes.

“I’ve taken Ms. Cavanaugh’s course in crime scene investigation and really liked it because we had to solve problems using evidence,” David says. “I got my certificate in fingerprinting and that is a first step to working for the Los Angeles Sheriff’s Department. I want to work in corrections first and then go out on the street as a patrol officer.”

meet elac people > ANNETTE BARRAZA

Annette Barraza drifted for several years searching for a career that engaged and excited her. She majored in chemistry in high school and her uncle encouraged her to pursue a science-based career. She experimented with art and photography classes, attending ELAC part-time. While working at Lowe’s, she began reading Dwell a shelter magazine that focused on architecture, and this inspired her to take an architecture class. She found architecture combined art and design with mathematics and science—the perfect “fit” for her abilities.

“I really got comfortable and became a serious student when I enrolled in the architecture department,” Annette says. “The faculty is so dynamic and encouraging. Each professor has special expertise that gives students a well-rounded experience. I’ve worked on a university design project and designed an apartment building with a hydrogen dispensing station and that developed my interest in ‘green’ technology. I want to transfer to the University of Arizona because they have an awesome school of architecture.”
Note: Students enrolled in one or any combination of the following courses ARC 160, 161, 162, 164, 170, 172, 173, 201, 202, 223, 262, 272, ENV 101, 102 and INT 201 and 202 shall pay a material fee of $20.00. The fee will increase by $5 if not paid by the end of the second week. NO REFUNDS.

The Department of Architecture curriculum includes the following courses: Architectural Interior, Environmental Design and Transportation Planning.

After graduating from Don Bosco Tech, Rafael went to work for an engineering firm as a draftsman. He loved to draw and experimented with animation, though he was unable to develop his hobby into a career. His drawing ability and knowledge of construction led him to enroll at ELAC and take a beginning architecture class and he found that he loved the creative aspects of the subject. Rafael quickly learned he would have to master higher mathematics to continue in his career—a problem because he had classic “math anxiety.”

“I had great math teachers who helped me master the basics by breaking everything down to the simplest steps and explaining what each process meant,” Rafael remembers. “With the help of math teachers like Fernando Fernandez and Mr. Gasparian, slowly but surely I began to ‘get it.’ Now I am taking pre-Calculus and that will qualify me to transfer to a university. My dream project would be to design a school that would be like a second home to both teachers and students.”

IMPORTANT INFORMATION ON COMPUTER COURSES
1. Students are REQUIRED to enroll in one computer lab section for EACH regular computer art course. (Example: If you take Art 633, you are REQUIRED to enroll in one section of Art 633. If you enroll in Art 633 and Art 645, you will be REQUIRED to enroll in one section of Art 638 and one section of Art 846).
2. Students should be sure to enroll in a lab section that is taught in the same room as their regular computer art course.
3. These courses all assume that students have at least a basic knowledge of computers.
4. Computer art lab courses are listed under the following numbers: Art 638, Art 845, Art 846. If the student finds that he/she has exceeded the maximum number of repeats for any of these courses, he/she may enroll in any of the other art lab courses that meet his/her location and time needs.

Aaron Calderon loves cars and working with his hands. Even as an art major at Lynwood High School, he drew and sculpted cars. A high school teacher recommended ELAC and Aaron decided to experiment with college. Aaron learns best when he can watch how to do something and then practice on projects using tools and equipment to make the theory real. His goal is to work as a technician at a dealership or in a law enforcement motor pool.

“I am working with four other students to build an energy efficient car from scratch to enter in the Shell Eco-marathon, a national competition that will be held in Houston this spring. I was in charge of building the frame and now we have to install the body on the frame, add the motor and devise the steering, gear, and braking systems. We have so much equipment that we can build almost anything we need to complete the project. I’m hoping to drive in the competition.”

When Brittany graduated from Schurr High School, she followed her sister to ELAC because she liked the fact it was close to home and less expensive than a university. She found her true passion when she enrolled in science classes. Brittany applied for several scholarships and is considering transferring to University of California, Irvine or Occidental for pre-med courses.

“I want to be a doctor and volunteering at Children’s Hospital has encouraged me to consider pediatrics,” Brittany says. “My ELAC professors have given me the courage to pursue a career in medicine because they are always urging me on and helping me to succeed. Thanks to MESA and the Tutoring Center I don’t feel like I am alone. I’ve done really well in demanding science classes thanks to professors like Dr. Rivera who is always encouraging me to try something new.”

Agustin plans to parlay his interest in chemistry and biology into a career in medicine. He hopes to transfer to UCLA or Occidental after completing his lower division academic requirements at ELAC. “I am enrolled in the Honors Program, which is a great way to make friends because the same group of students takes many classes together. I’ve had so many excellent teachers that it is hard to name my favorite. Mr. Ku was an inspiration because he is a great lab instructor who was both conceptual and technical. I also loved Professor Gurfield’s Honors English class because she connected literature to the social and political climate of each period and encouraged us to relate them to current events and our personal experiences.”

Agustin works as a tutor in the Learning Resources Lab. “I love to help people understand math and science problems, plus tutoring actually helps me to really learning a subject. ELAC is all about building friendships and getting to know people on a personal level.”

The following online beginning course will provide training in proper keyboard techniques and use of the computer. Microsoft Word 2010 will be used to produce letters, envelopes, tables, memorandums, and reports. This course will teach keyboarding by touch and the fundamental of Word 2010. Enrolling students are expected to have access to a PC with internet and email capabilities. For students without a home computer, the course can be taken at the South Gate Educational Center (Room SG-122), 2340 Firestone Blvd., South Gate, CA 90280, or for those students closer to ELAC’s main campus, in the computer lab located in E7-418 (during scheduled hours). Orientation sessions will be held at the following times for students (enrolled or adding) to learn what the course is about and how it will be conducted.

Wednesday, August 31, 2011
7:00 p.m. – 8:00 p.m.
South Gate Campus, Rm. SG-122

Saturday, September 3, 2011
11:00 a.m. – 12:00 p.m.
ELAC Campus, E7-418

If you cannot attend one of these scheduled orientation sessions, contact the instructor, Elaine Shibata, at shibatey@elac.edu or call (323) 265-8954 for additional information.

### CO SCI 201
**INTRODUCTION TO COMPUTERS AND THEIR USES**
Prerequisite: CO SCI 291 programming laboratory.

Note: Students MUST enroll in CO SCI 291 when taking CO SCI 201. Students enrolled in CO SCI 201 at the main campus or South Gate Educational Center must enroll in CO SCI 291 section #0557. Students may attend both locations to complete lab hours. Students enrolled in the online class must enroll in the CO SCI 291 section #1418.

When Marilyn immigrated to the United States from Guatemala, she had taken classes in accounting and was computer literate but spoke no English. After a year of ESL, she became fluent enough to enroll in ELAC’s credit program. After taking several advanced math courses, she decided to change her major to engineering. Marilyn has been selected to participate in the California Connects training program. Microsoft is providing free laptops and train-the-trainer instruction to ELAC science students with the goal of increasing digital literacy in underserved communities.

“Microsoft wants us to train at least two family members to use various computer programs,” Marilyn comments. “I plan to start with my six-year old brother and my 65-year old aunt. I am actually wondering who will learn the fastest. My brother has already experimented with a simple child’s computer. My aunt, on the other hand, has never operated a computer and is a little frightened of it. We must also recruit five community members and help them improve their computer skills.”

**Cooperative Education, Occupational**

**COOPERATIVE EDUCATION INSTRUCTOR:**

JR BENAVIDES (323) 415-5386

Prerequisite: Employment related to Occupational Major: Must be enrolled in at least 7 units (includes Coop Ed).

**WHAT IS COOPERATIVE WORK EXPERIENCE EDUCATION?**

This program allows students to earn college units for their on-the-job learning experience. (CWE) combines on the job experience with regular classroom instruction. It is designed to expand skills and knowledge and to improve self-understanding by integrating classroom study with planned supervised work experience. (See College Catalog for further information)

**COOPERATIVE EDUCATION - WORK EXPERIENCE IN YOUR MAJOR - 3 - 4 UNITS**

15 TO 19 HOURS PER WEEK OF WORK EXPERIENCE  3 UNITS
20 OR MORE HOURS PER WEEK OF WORK EXPERIENCE  4 UNITS

1. MUST attend only ONE orientation meeting DURING FIRST TWO WEEKS of semester.
2. Attend third and fourth week class meetings to set work goals.
3. Meet individually once more with instructor to finalize work goals

Must attend only one of the following Orientation Meeting during first two weeks of the semester. Orientations will follow the schedule listed below. Thereafter, go to F7 120.

Though Christian Aviles was accepted to University of California, Berkeley, right after graduating from Roosevelt High School, he decided to attend ELAC because it was close to home, less expensive and he could continue his volunteer work at the Chicana Social Action Center. He teaches abused and homeless women computer skills and his volunteer work has inspired him to attend Kalamazoo College in Michigan because they offer a double major in anthropology and sociology. Christian hopes to be a teacher or social worker so he can help build equality and social justice in his community.

“Classes at ELAC are a lot more challenging than I expected. When I compare my English assignments with friends attending universities, I find ELAC teachers expect more depth and research from their students, plus we are taught by real professors, not teaching assistants. Professor Sanchez has helped me learn how to develop a critical viewpoint and defend it in writing. ELAC professors really dedicate themselves to their students and move them to new levels of understanding and achievement.”

### ENGLISH TUTORING

The Writing Center, located in K5-1, offers tutoring, word processing, and Internet access for students in all disciplines. Students may improve their writing and thinking skills through one-on-one tutoring sessions, group workshops, and grammar assistance programs. Walk-in and scheduled appointments are available; students are also welcome to our Conversation Lab where they can improve their listening and speaking skills in a relaxed environment.

### THE WRITING CENTER HOURS ARE:

- Monday – Wednesday 7:00 a.m. – 9:00 p.m.
- Thursday 7:00 a.m. – 7:00 p.m.
- Friday & Saturday 10:00 a.m. – 4:00 p.m.

### REQUIRED CLASSES

- **ENGLISH 21** English Fundamentals
- **ENGLISH 26 or 57** Academic Foundations in Reading and Composition
- **ENGLISH 28 or 60s** Intermediate Reading and Composition
- **ENGLISH 101** College Reading and Composition

### RECOMMENDED CLASSES

- **CRITICAL THINKING**
  - Select One
  - **ENGLISH 102**: College Reading and Composition II (Literature)
  - **ENGLISH 103**: Composition & Critical Thinking (Contemporary Issues)

### ELECTIVE CLASSES

- **ENGLISH ELECTIVE COURSES**: Creative Writing, Humanities, and Literature Courses
- **HUMANITIES, LEARNING SKILLS, AND READING COURSES** following the new ESL section.

### Assistance for students at all levels is available in the Writing Center in K5-1.

### BASIC SKILLS 067CE

In order to enroll in one of the English Composition Sequence courses - English 21, 26, 28, 101, 102, or 103 - students must have proof that they have met the prerequisite for that course. This proof may be:

1. an appropriate assessment score,
2. successful completion of the prerequisite course, or
3. prerequisite completion form confirming successful completion of a comparable course at another college. After a computer check by Admissions, students not meeting the prerequisite for the course for which they registered will be administratively dropped.

ANDREW GONZALEZ < meet elac people >

life sciences

Andrew’s “dream university” is University of Southern California (USC) and he almost enrolled as a freshman, but the tuition costs were staggering, even though his mother worked there part-time. He wanted a change of scene after graduating from John Marshall High School in the Los Feliz area and chose ELAC to escape from high school “drama.” Andrew discovered he loves to write after taking Mr. Oropeza’s English course where he was challenged to think “outside the box.”

“My first love is medicine and my career goal is to go into pediatrics,” Andrew says. “I plan to use my writing skills and possibly write grants or research papers. When I complete my lower division courses, I can attend USC tuition free because now my mom works there full-time—but I also want to consider UCLA or Cornell. I volunteered to teach computer skills for the Housing Corporation of America in a mid-city housing complex and loved the experience. I chose medicine, writing and possibly teaching because they are all good ways to make a difference and benefit people in your community.”

Limitation on Enrollment: Pursuant to Title V, Section 58106B, (Health and Safety Considerations), as well as other state regulations, the student must possess a valid certificate of successful completion of the ‘Health Care Provider’ type CPR course commonly administered by either the Red Cross or the American Heart Association. This certificate must be presented to the instructor the first day the class meets. Course orientation is vitally important; as a result, first day attendance is mandatory, students missing first day of class will be dropped from the course.

The following are types of calculators which are acceptable for use in mathematics classes.

A scientific calculator is the basic level that should be used in these classes. A Business Analyst calculator should be used if the student expects to be majoring in business related fields. A Graphing calculator is useful if the student is going on to higher courses in mathematics.

The list below indicates which calculators are approved for the classes offered. Where more than one calculator is listed the student can choose one of those listed.

*South Gate Educational Center  
2340 Firestone Blvd., South Gate, CA 90280*
As a freshman, Christino was awarded a Million Dollar Scholarship, which paid for all of his tuition and books while attending ELAC. It has taken him three years to complete the demanding math and science courses he needs to transfer to a university engineering program. This semester he was a member of the California State University, Los Angeles, team that designed a residential hydrogen refueling station for the national competition sponsored by the Hydrogen Education Foundation. The team placed seventh in a field of 54 entries and was the only team to include community college members.

“My task was to research the building codes that regulate residential construction,” Christino noted. “When I joined the team, they hadn’t read the directions carefully. I pointed out that we were designing a residential hydrogen station—not a commercial one. This project was a great experience because it confirmed my career goal to work as an engineer in ‘green technology’. This was just like a university senior year project.”

Erinn Carusetta, a single mother with two daughters, is on a fast track to a nursing career. She has attended five local community colleges—moving to wherever she could find the science courses needed to complete the prerequisites for the RN program. She is poised to graduate and has applied to Mt. St. Mary’s, as well as California State Universities at Los Angeles and Long Beach, where she intends to pursue a BSN (Bachelor’s of Science in Nursing) preparatory to continuing her education to be a family nurse practitioner. “ELAC doesn’t deserve its reputation for being an easy college,” Erin observes. “My science and general education teachers are extremely demanding—the difference at ELAC is the excellent student support available from the professors, tutoring services and EOP&S. A side benefit of attending college is inspiring my daughters to use education to better their lives. We all do homework together and my eldest daughter is a straight-A student. They are already thinking of careers in science or medicine.”

”I am pursuing two majors with the goal of becoming an optometrist. Psychology helps me understand how people perceive things and biology courses teach the mechanics of how sensory systems work. I hope to continue on to UCLA for my Bachelor of Science degree and then on to medical school. I have been lucky to get all my science classes and have the support of MESA and the tutoring center.”

After graduating from Mark Keppel High School, Joan missed the enrollment deadline at California State University, Fullerton, and selected ELAC because it was close to home and less expensive than a university. She also wanted to make sure she was on the right academic track and immediately enrolled in science courses. She researched the best academic majors to prepare for a career in medicine and discovered UCLA’s psycho/biology program. She hopes to transfer next fall.

Lifelong Fitness Laboratory

The East Los Angeles College Life Long Fitness Laboratory is located in the Men’s gymnasium – C1-125. This is an open entry/open exist laboratory physical fitness exercise class designed to develop and encourage positive attitudes and habits toward cardiovascular efficiency, body composition, muscular strength and endurance, and flexibility. Each student will be assessed in the areas of body composition, cardiovascular efficiency, muscular strength and endurance, and flexibility. Fitness activity will primarily utilize exercise equipment organized into aerobic circuits with additional activity prescribed in an aerobics machine arena, body parts weight training area, and flexibility area.

Robert struggled for a year at Arizona State on a football scholarship after graduating from John Muir High School. Though it was a positive experience, he realized that he needed a more structured learning environment so he could excel academically as well as an athlete. A friend recommended ELAC, and Robert enrolled and tried out for the college team. Now his goal is to excel during his last year of eligibility as a college player, gain some publicity, and transfer to his dream school, the University of Oregon.

"I am working hard and excited about being a returning player next year. ELAC coaches stress how important academics are and have helped me structure my time so I can play football, participate in track events, and pass my classes. ELAC teachers are great too. I really liked Dr. Castro’s teaching style. She makes the information stick because she paints a picture of an issue and then makes you discuss your opinions.”

IF YOU ARE AN ACTING MAJOR
Our Acting program provides professional training and an adventure in risk-taking.

IF YOU ARE A 1ST SEMESTER ACTING MAJOR:
FIRST, Choose one of these classes or take both:
TA 200 Introduction to Acting - Discover the major acting theories through performance.
TA 323 Stage Management and Production. Student actors, directors, and producers plan and mount a production from the first rehearsal to the performance at the end of the semester.

THEN, if possible, also enroll in:
TA 270 Beginning Acting. Learn the essentials of basic acting technique.

PLUS, if you think you want to ACT in a play, enroll in:
TA 293 Rehearsals and Performance
TA 322 Play Production
TA 342 Technical Stage Production

IF YOU ARE A 2ND SEMESTER ACTING MAJOR
you should have completed TA 200 or TA 323, and perhaps, TA 270. Now choose:
TA 201 Acting Beyond the Basics.
TA 240 Voice.

AND/OR
TA 200, TA 323, TA 270, whichever you don’t have.

IF YOU ARE A 3RD SEMESTER ACTING MAJOR or beyond,
please make an appointment with the Associate Director of Theatre, Tom Atha, by calling 626 293 8034.

IF YOU ARE A TECHNICAL THEATRE MAJOR
BEHIND THE SCENES AND BACKSTAGE
These classes prepare students for production positions in theatre, television, film, and PAID INDUSTRY INTERNSHIP PROGRAMS offered through the department. Students can also receive credit by participating in Theatre productions in scenery construction and painting, and as technicians in lighting, sound, props, costumes, and make-up. Students may participate as Stage Managers and Assistant Stage Managers and learn the essentials of entertainment industry leadership.

IF YOU ARE A 1ST SEMESTER TECHNICAL THEATRE MAJOR, take :
TA 323 Stage Management and Production and TA 342 Technical Stage Production. Student actors, directors, and producers plan and mount a production from the first rehearsal to the performance at the end of the semester.

AND Choose:
TA 300/301 Stage Craft. Examine and create lighting for theatre, film and television, from concept to performance, including current trends in computerized and intelligent equipment or learn to build and paint scenery.

OR
TA 450 Beginning Stage Make-Up. An essential skill for all actors, this class provides an overview and practical experience for actors and make-up technicians.
TA 411 Costuming for Theatre. Learn design and construction techniques for period and modern costumes.

Online learning courses are available in a variety of disciplines. They are academically the same as on-campus courses, and meet the same General Education and Transfer requirements as their on-campus counterparts.

These courses are designed for students who enjoy learning independently and cannot attend on-campus on a regular basis, or who do not want to attend on-campus on a regular basis and who are comfortable using a computer.

Online courses do not require you to log on at a specific time of day, or for a specific number of hours per week. However, they are not self-paced courses. They follow the semester schedule, and online students have deadlines and schedules just as classroom courses do.

Online students make a commitment to log on to their classes at least three times per week.

You will not succeed in an online class if:

- You do not respect deadlines
- You need someone to show you how to use a computer
- You do not have access to a reliable computer with reliable internet access
- You have trouble reading and following written directions in English

IMPORTANT: After you register for an online class, do not wait to be contacted. You will not be contacted. Go to http://online.elac.edu There you will find information on how to proceed.

If at any point you are uncertain what to do next, contact your instructor immediately. Instructor contact information for online courses will be available at http://online.elac.edu If you have not logged in to your online course by the end of the second week of classes, you can expect to be dropped. The same deadlines for adding and dropping courses apply to online courses and classroom courses.

If an online course is closed, the only person who can add you to the class is the instructor. Instructor contact information is found at http://online.elac.edu

Instructional materials are available in alternative formats (Braille, large print, e-text, etc.) for disabled students. Please call the Disabled Students Program & Services at 323-265-8787 for additional information. Mathematics Courses

If you are taking an online Mathematics course, proceed immediately to www.onlinemath.elac.edu

Hardware and Software Requirements
To take an online course, you need at least the following hardware: operating system Windows 98, NT or 2000, XP, Mac Os 8.0 or higher, Pentium 166mhz, 32 MB RAM (256 MB recommended), 500 MB hard drive, CD ROM, sound card, and modem. The newer and better-equipped your system, the better your results will be.

You need the following software: A word-processing program (Microsoft Word recommended) and an up-to-date internet browser with JavaScript enabled (Microsoft Internet Explorer recommended). America Online is not recommended. AOL customers will have to know how to minimize their AOL browser and use a regular browser for their online classes. Your class may require you to have other programs such as a spreadsheet (Excel recommended).

Skill Requirements
You need to know how to use a computer, how to use e-mail, how to use your word-processing program, and how to access the internet. You need to know these things before attempting to take an online course.

Orientation
Your course MAY OR MAY NOT have an on-campus orientation meeting. Do not assume there is an orientation meeting. Do not assume there is not an orientation meeting. Do not wait to be contacted. You will not be contacted. Check the course listing or go to http://online.elac.edu for this information. There is no general orientation meeting; however, basic log-in instructions can be found at http://online.elac.edu

For More Information, or if you have a technical problem
Up-to-date information can be found at http://online.elac.edu If the website is inaccessible, contact Distance Education Coordinator Paulette Daw at dawpe@elac.edu, or at 323-415-5313. Please try the website first. Questions about course content and requirements, or requests to add a course, must be directed to the instructor of the course. Please

Note: The Distance Education Coordinator does not provide academic counseling or financial aid information.

**Note:** In order to take ESL Credit Courses, the ESL Assessment Placement process is required or ENGLISH 82 is the open-entry course.

**Note:** Students may also enroll in the following Courses:

- ESL 44 Conversation
- Citizenship 50

**LEVEL TWO**

**ESL 41**

*High Beginning*

This course will teach beginning communication skills in English. Students will learn basic conversation, understand conversations containing some new vocabulary, learn to read materials about familiar subjects, and write short messages.

**LEVEL THREE**

**ESL 42**

*Low Intermediate*

Students will learn how to participate in extended conversations on a variety of topics, understand conversations on unfamiliar topics, learn to read authentic materials on everyday subjects, and write paragraphs about previously discussed topics.

**LEVEL FOUR**

**ESL 43**

*High Intermediate*

Students will continue to learn how to participate in casual and extended conversations, understand abstract topics, read authentic materials about familiar subjects, and write descriptions and extended paragraphs.
