Erinn Carusetta, a single mother with two daughters, is on a fast track to a nursing career. She has attended five local community colleges—moving to wherever she could find the science courses needed to complete the prerequisites for the RN program. She is poised to graduate and has applied to Mt. St. Mary’s, as well as California State Universities at Los Angeles and Long Beach, where she intends to pursue a BSN (Bachelor’s of Science in Nursing) preparatory to continuing her education to be a family nurse practitioner. “ELAC doesn’t deserve its reputation for being an easy college,” Erin observes. “My science and general education teachers are extremely demanding—the difference at ELAC is the excellent student support available from the professors, tutoring services and EOP&S. A side benefit of attending college is inspiring my daughters to use education to better their lives. We all do homework together and my eldest daughter is a straight-A student. They are already thinking of careers in science or medicine.”

Lifelong Fitness Laboratory

The East Los Angeles College Life Long Fitness Laboratory is located in the Men’s gymnasium – C1-125. This is an open entry/open exist laboratory physical fitness exercise class designed to develop and encourage positive attitudes and habits with regard to cardiovascular efficiency, body composition, muscular strength and endurance, and flexibility.

Each student will be assessed in the areas of body composition, cardiovascular efficiency, muscular strength and endurance, and flexibility. Fitness activity will primarily utilize exercise equipment organized into aerobic circuits with additional activity prescribed in an aerobics machine arena, body parts weight training area, and flexibility area.

Joan Sun

“I am pursuing two majors with the goal of becoming an optometrist. Psychology helps me understand how people perceive things and biology courses teach the mechanics of how sensory systems work. I hope to continue on to UCLA for my Bachelor of Science degree and then on to medical school. I have been lucky to get all my science classes and have the support of MESA and the tutoring center.”

After graduating from Mark Keppel High School, Joan missed the enrollment deadline at California State University, Fullerton, and selected ELAC because it was close to home and less expensive than a university. She also wanted to make sure she was on the right academic track and immediately enrolled in science courses. She researched the best academic majors to prepare for a career in medicine and discovered UCLA’s psychology/biology program. She hopes to transfer next fall.

Robert struggled for a year at Arizona State on a football scholarship after graduating from John Muir High School. Though it was a positive experience, he realized that he needed a more structured learning environment so he could excel academically as well as an athlete. A friend recommended ELAC, and Robert enrolled and tried out for the college team. Now his goal is to excel during his last year of eligibility as a college player, gain some publicity, and transfer to his dream school, the University of Oregon.

“I am working hard and excited about being a returning player next year. ELAC coaches stress how important academics are and have helped me structure my time so I can play football, participate in track events, and pass my classes. ELAC teachers are great too. I really liked Dr. Castro’s teaching style. She makes the information stick because she paints a picture of an issue and then makes you discuss your opinions.”
