Online learning courses are available in a variety of disciplines. They are academically the same as on-campus courses, and meet the same General Education and Transfer requirements as their on-campus counterparts.

These courses are designed for students who enjoy learning independently and cannot attend on-campus on a regular basis, or who do not want to attend on-campus on a regular basis and who are comfortable using a computer.

Online courses do not require you to log on at a specific time of day, or for a specific number of hours per week. However, they are not self-paced courses. They follow the semester schedule, and online students have deadlines and schedules just as classroom courses do.

Online students make a commitment to log on to their classes at least three times per week.

You will not succeed in an online class if:

- You do not respect deadlines
- You need someone to show you how to use a computer
- You do not have access to a reliable computer with reliable internet access
- You have trouble reading and following written directions in English

IMPORTANT: After you register for an online class, do not wait to be contacted. You will not be contacted. Go to http://online.elac.edu

You will find information on how to proceed.

If at any point you are uncertain what to do next, contact your instructor immediately. Instructor contact information for online courses will be available at http://online.elac.edu If you have not logged in to your online course by the end of the second week of classes, you can expect to be dropped. The same deadlines for adding and dropping courses apply to online courses and classroom courses.

If an online course is closed, the only person who can add you to the class is the instructor. Instructor contact information is found at http://online.elac.edu

Instructional materials are available in alternative formats (Braille, large print, e-text, etc.) for disabled students. Please call the Disabled Students Program & Services at 323-265-8787 for additional information.

Mathematics Courses

If you are taking an online Mathematics course, proceed immediately to www.onlinemath.elac.edu

Hardware and Software Requirements

To take an online course, you need at least the following hardware: operating system Windows 98, NT or 2000, XP, Mac Os 8.0 or higher, Pentium 166mhz, 32 MB RAM (256 MB recommended), 500 MB hard drive, CD ROM, sound card, and modem. The newer and better-equipped your system, the better your results will be.

You need the following software: A word-processing program (Microsoft Word recommended) and an up-to-date internet browser with JavaScript enabled (Microsoft Internet Explorer recommended). America Online is not recommended. AOL customers will have to know how to minimize their AOL browser and use a regular browser for their online classes. Your class may require you to have other programs such as a spreadsheet (Excel recommended).

Skill Requirements

You need to know how to use a computer, how to use e-mail, how to use your word-processing program, and how to access the internet. You need to know these things before attempting to take an online course.

Orientation

Your course MAY OR MAY NOT have an on-campus orientation meeting. Do not assume there is an orientation meeting. Do not assume there is not an orientation meeting. Do not wait to be contacted. You will not be contacted. Check the course listing or go to http://online.elac.edu for this information. There is no general orientation meeting; however, basic log-in instructions can be found at http://online.elac.edu

For More Information, or if you have a technical problem

Up-to-date information can be found at http://online.elac.edu If the website is inaccessible, contact Distance Education Coordinator Paulette Daw at dawpe@elac.edu, or at 323-415-5313. Please try the website first. Questions about course content and requirements, or requests to add a course, must be directed to the instructor of the course. Please

Note: The Distance Education Coordinator does not provide academic counseling or financial aid information.
