Spring 2011 Schedule of Classes

Jonathan left his home in Toledo, Ohio, to pursue his dream of making it big in Hollywood as a screen writer. During a brief stint at the University of Toledo he wrote a screen play for a short movie and decided this was his true calling. He came to ELAC and enrolled in Administration of Justice courses figuring he would gather interesting material for future scripts. His next step is to transfer to a university with a great film school and continue writing.

“I love the weather in LA and feel like I found a home at ELAC. I’m a student worker in the Financial Aid Office and appreciate the friendly people and peaceful atmosphere. My teachers are very helpful and I’m proud that I have never dropped a class or gotten less than a passing grade.”

Melissa was recently awarded the California Ambulance Association’s highest award, the Star of Life. She and partner Brandon Garon received the award for helping a woman who had fallen and fractured her arm. They advocated for the patient’s care and well-being after delivering her to an emergency room that was not prepared to give her treatment. The team found another hospital and transported the patient there for immediate care.

“I’ve worked for CARE Ambulance Service, Inc. for four years. Because I work 24-hour shifts two or three days a week, I can continue going to school while working full time. Eventually I hope to work for the coroner’s office after I get my bachelor’s degree. My instructor, Janice Cavanaugh, has inspired me to continue my education and I am fascinated with forensic science and hope to make it my career.”

IMPORTANT INFORMATION ON COMPUTER COURSES
1. Students are REQUIRED to enroll in one computer lab section for EACH regular computer art course. (Example: If you take Art 633, you are REQUIRED to enroll in one section of Art 638. If you enroll in Art 633 and Art 645, you will be REQUIRED to enroll in one section of Art 638 and one section of Art 845).
2. Students should be sure to enroll in a lab section that is taught in the same room as their regular computer art course.
3. These courses all assume that students have at least a basic knowledge of computers.
4. Computer art lab courses are listed under the following numbers: Art 638, Art 845, Art 846. If the student finds that he/she has exceeded the maximum number of repeats for any of these courses, he/she may enroll in any of the other art lab courses that meet his/her location and time needs.

I worked as a kindergarten teacher’s assistant for Project Apple and found I loved helping students. The teacher was an inspiration and I want to follow in her footsteps and become an elementary school teacher. I learned a lot in my Child Development courses and now I look at children differently—even my brothers and sisters.”

Jo Ann plans to transfer to California State University, Dominguez Hills, because they have a flexible degree program that will allow her to complete her degree in two years. She enjoyed attending ELAC’s South Gate Center because it was easy to get to know her teachers and she liked her job helping other students apply for financial aid.

The following online beginning course will provide training in proper keyboard techniques and use of the computer. Microsoft Word 2010 will be used to produce letters, envelopes, tables, memorandums and reports. This course will teach keyboarding by touch and the fundamentals of Word 2007. Enrolling students are expected to have access to a PC with Internet and email capabilities. For students without a home computer, the course can be taken at the South Gate Educational Center (Room *SG-122), 2340 Firestone Blvd., South Gate, CA 90280, or for those students closer to ELAC’s main campus, computer labs located in E7-418 (during scheduled hours). Orientation sessions will be held at the following times for students (enrolled or adding) to learn what the course is about, how it will be conducted, and obtain an email account (if needed).

Wednesday, February 9, 2011 7:00pm – 8:00 pm
South Gate Campus, Room SG-122

Saturday, February 12, 2011 11:00am – 12:00 pm
ELAC Campus, Room E7-418

If you cannot attend one of these scheduled orientation sessions, contact the instructor, Elaine Shibata, at Shibatey@elac.edu or call (323) 265-8954 for additional information.

Meet ELAC People: JIMMY ARAGON

"I started ELAC just to check college out and see how it felt. When I enrolled in two Child Development classes and learned all about children and their needs, I understood myself better and found a career. I would like to be an elementary or pre-school teacher. ELAC has given me a great start and now my dream is to transfer to USC."

Jimmy is one of the growing numbers of men to choose a career in child development. They are changing the stereotype for this career as a women-only profession. Male role models are especially valued in pre-school education because it is important for children to see men in nurturing roles. Men are more likely to include games and competition in their teaching methods and children benefit from a variety of learning experiences.

Wanyue was born in a small town in northern China. She arrived in Los Angeles as a teenager and worked part-time at the GEG Engineering group as an AutoCAD drafter while attending high school. She began taking engineering courses at ELAC during the evening and completed her lower division transfer and major requirements nine years later. She is the first person in her family to attend college and has been accepted by the Engineering Department at California State University, Los Angeles.

"I worked on the ELAC project to design and produce a solar tricycle. I was responsible for coordinating the group that built the vehicle with the team that designed and built solar panels that power the vehicle. The trickiest part of the project was to link the solar panels to the battery-powered motor. I used many of the skills that I had learned in my engineering, physics and math courses to complete the project. I feel very prepared to continue my education at CSULA."

ENGLISH SKILLS COURSE SEQUENCE

Level I
Develops reading comprehension skills for students testing below English 21.

Level II
Reviews the basic rules of grammar, sentence development, and paragraph writing. Readings develop vocabulary and topics for writing.

Level III
Progresses from writing paragraphs to writing multi-paragraph expository essays. Grammar and reading assignments reinforce writing skills.

Level IV
Strengthens skills in writing essays in a variety of rhetorical modes. Readings serve as examples and as a basis for discussion and further writing.

Level V
A college-level Freshman composition course. Students who plan to transfer to a four-year college or university. (Meets graduation requirements for the A.A. degree).

Level VI
Courses for English majors and for all students who appreciate literature and creative writing. Intended for students who plan to transfer to four-year colleges or universities.

ENGLISH TUTORING
The Writing Center, located in F5-104, offers tutoring, word processing, and Internet access for students in all disciplines. Students may improve their writing and thinking skills through one-on-one tutoring sessions, group workshops, and grammar assistance programs. Walk-in and scheduled appointments are available; students are also welcome to our Conversation Lab where they can improve their listening and speaking skills in a relaxed environment.

The Writing Center hours are:
Monday – Wednesday 7:00 a.m. – 9:00 p.m.
Thursday 7:00 a.m. – 7:00 p.m.
Friday & Saturday 10:00 a.m. – 4:00 p.m.

Note: English as a Second Language courses immediately follow regular English course listings. Humanities, Learning Skills, and Reading course listings follow the new ESL section.

After graduating from Garfield High School, Reina went to UC Santa Cruz and realized that she wasn’t ready for a four year university. She decided to save money, live at home and enroll in the Honors Program at ELAC to prepare for bachelor’s and master’s degrees. She has been accepted to UC Riverside and is planning to major in English literature with the career goal of becoming a teacher.

“I love ELAC because it has shaped me and helped me figure out what I want as a career. I thought I knew so much after graduating from high school only to find that I had a lot to learn about people and other cultures. I am a student worker in the Academic Affairs office and have experienced how the college operates. I respect the ELAC administrators because I see they try to do everything possible to help the most students, even when they have to make unpopular decisions.”

After working for an outdoor advertising agency for 21 years, Alicia Estrada was laid off. She realized that her skills needed expanding and updating to make her competitive in today’s challenging economy. Alicia heard about ELAC’s Logistics program and enrolled because the classes looked interesting and it is a quick way to get a certificate that would prepare her for employment in a growth industry.

“I used Global Positioning Systems (GPS) in my former job and that is a critical skill for logistics—plus I am good at detail work. I quickly realized that logistics is a lot more than driving a forklift or a truck. Even though going back to school was a little intimidating, I enjoy the classes and am studying to be certificated to prove I have the skills to work in the industry. I have two children and they are happy that I decided to return to college.”

CALCULATOR USAGE IN MATHEMATICS

The following are types of calculators which are acceptable for use in mathematics classes.

A scientific calculator is the basic level that should be used in these classes. A Business Analyst calculator should be used if the student expects to be majoring in business related fields. A Graphing calculator is useful if the student is going on to higher courses in mathematics.

The list below indicates which calculators are approved for the classes offered. Where more than one calculator is listed the student can choose one of those listed.

Sun Ke was accepted to UCLA after graduating from his high school in Nuning, China, but couldn’t afford the tuition. He enrolled in a Los Angeles language school to improve his English and researched colleges. He chose ELAC and relishes his science and math classes because they are challenging. Sun works in the Learning Assistance Center tutoring students in all levels of math up to calculus and differential equations, general chemistry and physics. He hopes to transfer to California Polytechnic University, San Luis Obispo, or Caltech.

“*My two favorite ELAC professors, Rahim Faradineh and Viken Kiledjian are tough, but have standards that compare to university math and physics classes. Getting an ‘A’ in their classes has prepared me to major in aerospace systems engineering. I hope to continue my education through graduate studies and then go into product development so I can be my own boss.*”

women’s studies

“After graduating from Bell Gardens High School, I didn’t know what college was about or what I wanted to do so I decided to experiment. I enrolled at ELAC because it was close to home and inexpensive. After taking a sociology course, I became interested in women’s issues and participated in discussions about developing an official Women’s Studies degree. It was exciting to realize that I could help abused women to change their lives. My career goal is to get a master’s degree in psychology and become a therapist or perhaps continue to law school.”

Paola completed her undergraduate requirements and transferred to UCLA this past fall. At ELAC she participated in student government, took advantage of the Transfer Center and academic counselors, and participated in student clubs. She felt “at home because ELAC professors put themselves out there for students.”

CHLOE WANG
nursing

Chloe Wang prepared herself to study abroad by taking English and Spanish classes at her high school in Tianjin, China. She chose East Los Angeles College based on recommendations from a friend who lives in Los Angeles. She traveled to the US by herself, urged on by her father who felt going to an American college would help her get a good job. She loves math and science classes and chose to study nursing. A US education and the ability to pass a test in China will allow her to be a nurse when she returns home.

“I really enjoy the hospital practice classes taught by Ms. Gaines because she not only teaches us medical theory but also how to learn on our own. Wearing a uniform makes me feel responsible for helping my patients. I took two Spanish classes at ELAC as well as English so I can communicate with my patients in three languages. That is really important at Garfield Medical Center because we have many Chinese and Spanish-speaking patients.”

IF YOU ARE A 1ST SEMESTER TECHNICAL THEATRE MAJOR, TAKE:

AND/OR

IF YOU ARE AN ACTING MAJOR

Our Acting program provides professional training and an adventure in risk-taking.

IF YOU ARE A 1ST SEMESTER ACTING MAJOR:

FIRST, Choose one of these classes or take both:

TA 200 Introduction to Acting - Discover the major acting theories through performance.

TA 323 Stage Management and Production. Student actors, directors, and producers plan and mount a production from the first rehearsal to the performance at the end of the semester.

THEN, IF POSSIBLE, ALSO ENROLL IN:

IF YOU ARE A TECHNICAL THEATRE MAJOR

BEHIND THE SCENES AND BACKSTAGE

These classes prepare students for production positions in theatre, television, film, and PAID INDUSTRY INTERNSHIP PROGRAMS offered through the department. Students can also receive credit by participating in Theatre productions in scenery construction and painting, and as technicians in lighting, sound, props, costumes, and make-up. Students may participate as Stage Managers and Assistant Stage Managers and learn the essentials of entertainment industry leadership.

IF YOU ARE A 2ND SEMESTER ACTING MAJOR

you should have completed TA 200 or TA 323, and perhaps, TA 270. Now choose:

TA 201 Acting Beyond the Basics.

TA 240 Voice.

AND/OR

TA 200, TA 323, TA 270, whichever you don’t have.

IF YOU ARE A 3RD SEMESTER ACTING MAJOR OR BEYOND

please make an appointment with the Associate Director of Theatre, Tom Atha, by calling 626 293 8034.

IF YOU ARE A TECHNICAL THEATRE MAJOR

BEHIND THE SCENES AND BACKSTAGE

These classes prepare students for production positions in theatre, television, film, and PAID INDUSTRY INTERNSHIP PROGRAMS offered through the department. Students can also receive credit by participating in Theatre productions in scenery construction and painting, and as technicians in lighting, sound, props, costumes, and make-up. Students may participate as Stage Managers and Assistant Stage Managers and learn the essentials of entertainment industry leadership.

IF YOU ARE A 1ST SEMESTER TECHNICAL THEATRE MAJOR, TAKE:

TA 323 Stage Management and Production and TA 342 Technical Stage Production.

AND CHOOSE:

TA 300/301 Stage Craft. Examine and create lighting for theatre, film and television, from concept to performance, including current trends in computerized and intelligent equipment or learn to build and paint scenery.

OR

TA 450 Beginning Stage Make-Up. An essential skill for all actors, this class provides an overview and practical experience for actors and make-up technicians.

TA 411 Costuming for Theatre. Learn design and construction techniques for period and modern costumes.

NOTICE:

Our Acting program provides professional training and an adventure in risk-taking.

IF YOU ARE A 2ND SEMESTER ACTING MAJOR

PLUS, if you think you want to ACT in a play, enroll in:

Online learning courses are available in a variety of disciplines. They are academi-
cally the same as on-campus courses, and meet the same General Education and
Transfer requirements as their on-campus counterparts.

These courses are designed for students who enjoy learning independently
and cannot attend on-campus on a regular basis, or who do not want to attend
on-campus on a regular basis and who are comfortable using a computer.

Online courses do not require you to log on at a specific time of day, or for a specific
number of hours per week. However, they are not self-paced courses. They follow
the semester schedule, and online students have deadlines and schedules just as
classroom courses do.

Online students make a commitment to log on to their classes at least three times
per week.

You will not succeed in an online class if:
• You do not respect deadlines
• You need someone to show you how to use a computer
• You do not have access to a reliable computer with reliable internet access
• You have trouble reading and following written directions in English

IMPORTANT: After you register for an online
class, do not wait to be contacted. You will not
be contacted. Go to http://online.elac.edu

There you will find information on how to proceed.

If at any point you are uncertain what to do next, contact your instructor immediately.
Instructor contact information for online courses will be available at http://online.
elac.edu If you have not logged in to your online course by the end of the second
week of classes, you can expect to be dropped. The same deadlines for adding
and dropping courses apply to online courses and classroom courses.

If an online course is closed, the only person who can add you to the class is the
instructor. Instructor contact information is found at http://online.elac.edu

Instructional materials are available in alternative formats (Braille, large print, e-text,
etc.) for disabled students. Please call the Disabled Students Program & Services
at 323-265-8787 for additional information.

Mathematics Courses

If you are taking an online Mathematics course, proceed immediately to www.
onlinemath.elac.edu

Hardware and Software Requirements

To take an online course, you need at least the following hardware: operating system
Windows 98, NT or 2000, XP, Mac Os 8.0 or higher. Pentium 166mhz, 32 MB RAm
(256 MB recommended), 500 MB hard drive, CD ROM, sound card, and modem.
The newer and better-equipped your system, the better your results will be.

You need the following software: A word-processing program (Microsoft Word
recommended) and an up-to-date internet browser with JavaScript enabled (Micro-
soft Internet Explorer recommended). America Online is not recommended. AOL
customers will have to know how to minimize their AOL browser and use a regular
browser for their online classes. Your class may require you to have other programs
such as a spreadsheet (Excel recommended).

Skill Requirements

You need to know how to use a computer, how to use e-mail, how to use your
word-processing program, and how to access the internet. You need to know
these things before attempting to take an online course.

Orientation

Your course MAY OR MAY NOT have an on-campus orientation meeting. Do not
assume there is an orientation meeting. Do not assume there is not an orien-
tation meeting. Do not wait to be contacted. You will not be contacted. Check
the course listing or go to http://online.elac.edu for this information. There is no
general orientation meeting; however, basic log-in instructions can be found at
http://online.elac.edu

For More Information, or if you have a technical problem

Up-to-date information can be found at http://online.elac.edu If the website is inac-
cessible, contact Distance Education Coordinator Wendy Bass at bassw@elac.edu,
or at 323-415-5313. Please try the website first. Questions about course content
and requirements, or requests to add a course, must be directed to the instruc-
tor of the course. Please

Note: The Distance Education Coordinator does not provide academic coun-
seling or financial aid information.
