CALCULATOR USAGE IN MATHEMATICS

The following are types of calculators which are acceptable for use in mathematics classes.

A scientific calculator is the basic level that should be used in these classes. A Business Analyst calculator should be used if the student expects to be majoring in business related fields. A Graphing calculator is useful if the student is going on to higher courses in mathematics.

The list below indicates which calculators are approved for the classes offered. Where more than one calculator is listed the student can choose one of those listed.

Sun Ke was accepted to UCLA after graduating from his high school in Nunjing, China, but couldn’t afford the tuition. He enrolled in a Los Angeles language school to improve his English and researched colleges. He chose ELAC and relishes his science and math classes because they are challenging. Sun works in the Learning Assistance Center tutoring students in all levels of math up to calculus and differential equations, general chemistry and physics. He hopes to transfer to California Polytechnic University, San Luis Obispo, or Caltech.

“My two favorite ELAC professors, Rahim Faradineh and Viken Kiledjian are tough, but have standards that compare to university math and physics classes. Getting an ‘A’ in their classes has prepared me to major in aerospace systems engineering. I hope to continue my education through graduate studies and then go into product development so I can be my own boss.”

women’s studies

“After graduating from Bell Gardens High School, I didn’t know what college was about or what I wanted to do so I decided to experiment. I enrolled at ELAC because it was close to home and inexpensive. After taking a sociology course, I became interested in women’s issues and participated in discussions about developing an official Women’s Studies degree. It was exciting to realize that I could help abused women to change their lives. My career goal is to get a master’s degree in psychology and become a therapist or perhaps continue to law school.”

Paola completed her undergraduate requirements and transferred to UCLA this past fall. At ELAC she participated in student government, took advantage of the Transfer Center and academic counselors, and participated in student clubs. She felt “at home because ELAC professors put themselves out there for students.”
