We know the importance of “success breeding success.” ELAC college leaders and faculty are working to create a more positive environment to promote innovative strategies that help more students achieve degrees and certificates.

LOOK FOR THESE CHANGES

- Careful student assessment to help students select the perfect courses to build skills and prepare for the next level
- Clearly define the standards for college-ready high school preparation
- Initiate innovations that work to help drive student success
- Emphasize student success and outcomes by measuring performance accurately
