SPRING

CLASSES BEGIN

50¢ (TAX INCLUDED)

50¢ (TAX INCLUDED)
The first phase of a long-awaited Math/Science complex is scheduled to open in 2016. It will feature state-of-the-art science labs, a large lecture hall, up-to-date classrooms, and the math tutoring center. Once the first phase is complete, the second phase will be to demolish the existing G8 and H8 buildings and replace them with a single, two-story building which will house Physics, Anthropology, Geology, Geography, and GIS. Presently all the sciences and mathematics are housed in bungalows scattered around campus. Needless to say, faculty are enthusiastically waiting for their new home.
