

# **New Faculty Institute**

**“Being an Advocate of Student Success!”**

## **About the Institute:**

- While the faculty contract requires orientation, the Office of Professional Development’s New Faculty Institute (NFI) goes beyond the basic orientation to provide a high-quality, enriching and interactive institute for all participants.
- This 10-month program (August to May) features a unique blend of basic faculty orientation with high-level discussions and action-projects regarding student success.
- New, tenure-track faculty members are empowered to successfully serve the ELAC student body.

### **Institute Topics:**

- the college organizational structure,
- critical campus support services provided for students and faculty,
- key support personnel,
- college policies and procedures,
- curriculum and academic policy oversight,
- as well as pedagogy in higher education.

## **Encourage your new faculty to participate today!**

To RSVP, contact the Office of Professional Development by email or by phone.

### **Facilitator:**

J. Edward Stevenson

**Office:** F5-321
