## Degree Path and Requirements:

Noncredit Program: Basic Math Success, Certificate of Completion. This map is a suggested term-by-term sequence of courses to complete the program in a recommended time frame. This is an efficient and recommended plan, but actual plans may vary by individual student need. This map cannot replace a meeting with [counselors](#).

## Department Advising Notes:

Students seeking to prepare for credit Math classes or other STEM would benefit from this program. If a student is returning to school after many years, they can use this program as a bridge to credit coursework.

## Program Description

The Basic Math Success Certificate of Completion prepares students with the basic math skills to succeed in credit Math and other STEM subjects. The program can also complement a CTE program that requires solid computational skills.

## Career and Transfer Opportunities

Academic Preparation courses are designed for students who wish to improve reading, writing, math, and study skills before enrolling in college-level credit courses. These courses also prepare students to take the GED/HiSET high school equivalency exams.

Visit the [Transfer Center](#) for transfer information, which varies based on transfer college. Make an appointment with a [counselor](#). Students can visit [Career and Job Services](#) for career counseling and further exploration.
